Early Battery Clock Parts & Restoration

## Bulle Clock Serial Number 56127.

*Nice Four Glass Tall Bulle clock. It has had new wiring in the past, but other than that it looks as though it is untouched. I replaced the broken suspension with a new one. The case is in good condition although the lacquer has worn away in places. The coil still retains the original cord which has aged gracefully to a straw yellow. The dial is of the aluminium insert type and is in excellent condition.*
