## Bulle Clock Serial Number 8696

*An unusual example of the "A" type Bulle with an original card insert dial that has some discolouration as can be seen in the photos. It will look much better though against the restored brass work. Again, this is the French version of the clock and the dial monogram reflects this. The base label is missing but a suitable replacement is an Horologix copy BU017. Although the clock frame is in pieces it is all there. Why it was taken apart we will never know.*
